Enterprise Framework & Pricing Guidelines

Confidential · For Paddle Risk Review & Prospective Enterprise Clients · Document Version: 2026-Q2

1 — Company & Product Overview

GDRock is a B2B SaaS compliance infrastructure platform built for EU-regulated digital businesses. GDRock provides automated GDPR compliance tooling, Supabase-powered data-consent storage vaults, and custom framework implementation services to SaaS companies, e-commerce operators, and AI platforms processing personal data of EU residents.

All products and services are delivered as software assets, pre-configured digital templates, and technical implementation engagements. **GDRock does not provide legal advice** and does not act as a data protection officer or legal representative. Customers retain full legal responsibility for their own compliance obligations.

Merchant of Record: All transactions are processed by **Paddle.com Market Ltd.**

2 — Core Product Portfolio

A. Automated EU Compliance Tracking Scripts

Custom-coded JavaScript and server-side scripts that monitor, capture, and log consent events, cookie categorisation states, and data subject interactions across web properties.

B. Supabase Data-Consent Storage Vaults

Purpose-built Supabase database schemas, RLS policies, and edge function pipelines that store granular, timestamped consent records in compliance with GDPR Article 7 accountability requirements.

C. Custom Framework Implementation

End-to-end deployment of GDRock's compliance framework tailored to the customer's technology stack, including DPAs, RoPA, LIA, and multi-jurisdiction policy documentation.
